Motion for Court Appointed Counsel

I, Christian Gagnon, petitioner, request Effective
Assistance of Counsel for the number as following
reasons; in the above captioned cases;

1) I do not have money to afford an attorney

2) The attorneys I've attempted to have help me
only want to do slip and fall or Auto Accidents.
No one wants to use their degrees to help the
ones in dyre need of help.

3) I have legittimate claims of US Constitution
Violations and can't present them without being
unfairly dismissed

4) Arbitrary Arrests are [NOT ONLY] unlawful

(1)

they are UNCONSTITUTIONAL! We the People also have the Right to Medical and/or Psychiatric Attention. To deny, punish or ignore our cries for help is a HIPPA Right Violation. I attempted suicide and wish I didn't wake up every morning since these malicious people destroyed my livelihood. When we need help, we need someone to turn to.

5) Parole Warrants are Rubber-stamped. There is no one to review or weigh the evidence before arresting us and sending us back to an SCI directly until however long the board/DOC justifies keeping us incarcerated. We are guilty [ALWAYS] before proven innocent and even when we prove our innocence, we are still found guilty because they have to justify keeping us back in an SCI. 2 Months is long enough in an SCI to destroy a persons livelihood. 6 mths put me in the dirt so deep I can't get up and won't be able to if Parole keeps getting away with what they are doing. I deserve to be heard.
